

Say Hello to a Better Way to Grow.

Do you want to expand? Make renovations? Upgrade your equipment? Purchase Inventory? Improve cash flow? With Clover® Capital, it's easier than ever to save the funds you need to turn your future credit and debit card sales into working capital.

Turn Sales Into Capital

Sure you're a small business, but that doesn't mean you can't dream big. Let Clover Capital help.

Fast Application Process

Standard loans aren't for everyone. And, definitely aren't a simple one page application like Clover.

Get Funded Quickly

Get approved within 24 hours and, upon acceptance, you'll see cash in your account within 1-2 business days.

Why Get Clover Capital?

Let's face it, raising capital can be stressful. And making payments isn't always easy. Because Clover Capital is based on future sales, you can feel confident in your ability to repay.

How Does It Work?

- 1 Apply.** To start, just tell us a bit about you and your business. It's quick. Besides, you've got other things on your plate today.
- 2 Get Qualified.** Approved applicants get their working capital advance amount based on their average monthly Visa®, Mastercard®, and Interac® Debit processing volume. Brilliant, right?
- 3 Repay Based on Your Sales.** You won't get stuck with a fixed payment that your current sales can't support. Repayment is made using a small percentage to your daily sales. When sales are strong, you pay more whereas when sales are slow, you pay less. Unlike a loan, Clover Capital has:

- No fixed term
- No fixed payment amount
- No interest rate
